About Me

Motivated Software Engineering student with hands-on experience developing web applications using JavaScript, React, Node.js, and REST APIs. Passionate about building practical software solutions, learning new technologies, and collaborating in team environments. A fast learner with strong problem-solving skills seeking to grow as a Software Developer Intern and contribute to impactful technology projects.

Technical Skills

Front-End Development:

- HTML, CSS, JavaScript, React.js, Bootstrap, Responsive Web Design

APIs & Backend Basics:

- Node.js, Express.js, REST API

Databases:

- MySQL, PostgreSQL

Development Tools:

- Git, GitHub, Postman, Trello

Design Tools:

- Figma, Canva

Programming Languages:

- JavaScript, Python, C/C++, Java

Concepts

- Object-Oriented Programming (OOP), Web Application Development, Agile/Scrum Basics

Projects

AI-Powered Weather Chatbot

- **Technologies:** React.js, Node.js, Dialogflow, OpenWeatherMap API
- Built an intelligent chatbot that answers weather-related questions using natural language processing.
- Developed a React-based interface that retrieves real-time weather data via API integration.
- Implemented backend logic with Node.js to handle API communication.
- **GitHub:** <https://github.com/SothSokhomal/Weather-Bot-App>

Personal Portfolio Website

- **Technologies:** HTML, CSS, JavaScript
- Designed and developed a personal portfolio website to showcase projects and technical skills.
- Implemented responsive layouts and modern UI components.
- **GitHub:** https://github.com/SothSokhomal/SothSokhomal_portfolio

Expense Tracker Web Application

- **Technologies:** HTML, CSS, JavaScript
- Developed a CRUD-based web application for tracking daily expenses.
- Implemented functionality to add, update, and delete expense records.
- Used Git for version control and organized project development.
- **GitHub:** <https://github.com/SothSokhomal/expenseapp>

Spotify UI Clone

- **Technologies:** HTML, CSS, JavaScript
- Built a responsive front-end clone of the Spotify interface.
- Practiced layout structuring, CSS styling, and responsive design techniques.
- **GitHub:** https://github.com/SothSokhomal/song_soundie

Education

Cambodia University of Technology and Science (CamTech)

- Bachelor's Degree in Software Engineering. 2024 – Present

Australian Center for Education (ACE)

- General English Program 2016 – 2023

Phsar Derm Ktov High School

Graduated: 2024

Certificates

- UX/UI Design Short Course – Future.Bit Academy (2025)
 - Introduction to Dynamic Web Development: HTML, CSS, JavaScript – Champion Coders (2024)
 - Python Programming for Intermediates – Champion Coders (2022)
 - Public Speaking Course (2023)
 - General English Program – ACE (2016 - 2023)
-

Leadership & Activities

Sisters of Code Ambassador (2026)

- Promoted technology education and encouraged youth, especially women, to participate in STEM and programming.

SEA Sponge City Innovation Challenge (2025)

- Team project selected as Top 5 Finalist for developing sustainable urban flood solutions.

TVET Volunteer – Registration Assistant (2025)

- Supported event operations and participant coordination.

E-Gen Innovation Program (2025)

- Worked with a team to develop and demonstrate an innovative project, earning First Runner-Up recognition in a national innovation program organized by the Ministry of Education, Youth and Sport (MoEYS)Your paragraph text

Prosob Festival Youth Volunteer (2025)

- Assisted in event organization and participant coordination.
-

Scholarships

- 75% Scholarship – Cambodia University of Technology and Science (CamTech)
 - 100% Scholarship – TUX Global Institute
 - 100% Scholarship – Center of Science and Technology Advanced Development
 - 100% Scholarship – Paññasatra University of Cambodia (AMT)
-

Languages

- Khmer – Native
 - English – Fluent
