

SOOTH VANNAK ROTHCHANSOKHOMAL

Software Developer Intern | React · JavaScript · Node.js

Phnom Penh, Cambodia

☎ 085 257 728 ✉ soth.vannakrothchansokhomal@gmail.com 🌐 github.com/SothSokhomal 🌐 [Portfolio](#)

About Me

Motivated Software Engineering student with hands-on experience developing web applications using JavaScript, React, Node.js, and REST APIs. Passionate about building practical software solutions, learning new technologies, and collaborating in team environments. Experienced in sustainability-focused innovation projects, including urban flood resilience and air quality awareness, and committed to developing digital solutions that support climate resilience and empower communities. A fast learner with strong problem-solving skills seeking to grow as a Software Developer Intern and contribute to impactful technology projects.

Education

Cambodia University of Technology and Science (CamTech) <i>Bachelor's Degree in Software Engineering</i>	2024 – Present <i>Phnom Penh, Cambodia</i>
Australian Center for Education (ACE) <i>General English Program</i>	2016 – 2023 <i>Phnom Penh, Cambodia</i>
Phsar Derm Ktov High School <i>General Knowledge / High School Diploma</i>	2018 – 2024 <i>Phnom Penh, Cambodia</i>

Technical Skills

Front-End Development: HTML, CSS, JavaScript, React.js, Bootstrap, Responsive Web Design
APIs & Backend Basics: Node.js, Express.js, REST API
Databases: MySQL, PostgreSQL
Development Tools: Git, GitHub, Postman, Trello
Design Tools: Figma, Canva
Programming Languages: JavaScript, Python, C/C++, Java
Concepts: Object-Oriented Programming (OOP), Web Application Development, Agile/Scrum Basics

Experience & Innovation Projects

ClearAir — Emergency Air Pollution Alert App <i>UX Researcher & Product Designer</i>	2025 – Present <i>Phnom Penh, Cambodia</i>
- Designed a mobile app providing real-time air quality alerts in Khmer and English. - Conducted user interviews and usability testing with Cambodian users to improve accessibility. - Built a prototype featuring AQI alerts, health guidance, and SMS fallback for low-internet environments. - Focused on students, commuters, and vulnerable communities exposed to air pollution.	
Green Flow — SEA Sponge City Innovation Challenge <i>Team Member Top 5 Finalist</i>	2025 <i>Phnom Penh, Cambodia</i>
- Contributed to a sustainability project addressing urban flooding in Phnom Penh. - Proposed nature-based solutions including rain gardens, bioswales, and permeable pathways. - Helped design a community-focused prototype to improve flood awareness and resilience.	
E-Gen Innovation Program — Ministry of Education, Youth and Sport (MoEYS) <i>Team Member Top 5 Team, First Runner-Up</i>	2025 <i>Phnom Penh, Cambodia</i>
- Represented CamTech University in a national innovation competition. - Co-developed SDablr, an IoT-based assistive solution supporting students with disabilities and hard-of-hearing learners.	
Selected among the Top 5 teams and invited to demo the prototype, earning First Runner-Up recognition.	
HomeSweet Rental App <i>Lead Designer & System Architect</i>	2025 <i>Phnom Penh, Cambodia</i>
- Led and facilitated the design team, coordinating design tasks and ensuring consistency across the project. - Designed the overall system architecture, including architecture diagrams, flowcharts, data flows, and system processes. - Prepared project documentation, system specifications, and design decisions. - Collaborated with the development team to translate requirements into a cross-platform student housing solution using Flutter, Vue.js, and Firebase.	

Projects

AI-Powered Weather Chatbot | *React.js, Node.js, NLP, OpenWeatherMap API*

- Developed an intelligent conversational agent using Node.js and NLP to deliver real-time weather updates.
- Integrated the OpenWeatherMap API to fetch and parse live meteorological data based on dynamic user location queries.
- Implemented intent recognition to accurately interpret varied user inputs and built a React-based interface for 24/7 automated weather reporting.
- Live Demo: weather-ai-bot-632079387667.asia-southeast1.run.app | GitHub: github.com/SothSokhomal/Weather-Bot-App

Personal Portfolio Website | *HTML, CSS, JavaScript*

- Designed and developed a personal portfolio website to showcase projects and technical skills.
- Implemented responsive layouts and modern UI components.
- GitHub: github.com/SothSokhomal/SothSokhomal_portfolio

Expense Tracker Web Application | *HTML, CSS, JavaScript*

- Developed a CRUD-based web application for tracking daily expenses.
- Implemented functionality to add, update, and delete expense records.
- Used Git for version control and organized project development.
- GitHub: github.com/SothSokhomal/expenseapp

Spotify UI Clone | *HTML, CSS, JavaScript*

- Built a responsive front-end clone of the Spotify interface.
- Practiced layout structuring, CSS styling, and responsive design techniques.
- GitHub: github.com/SothSokhomal/song_soundie

Certificates

Leadership and Followership — The Open University (Expired Jul 2026)
ASEAN Data Science Explorers 2026 Enablement Session — ASEAN Foundation (Issued Jul 2026)
Scrum Master Certification — Agile Enterprise Coach, London (Issued Jun 2026, Credential ID: 1006580)
UX/UI Design Short Course — Future.Bit Academy (2025)
Introduction to Dynamic Web Development: HTML, CSS, JavaScript — Champion Coders (2024)
Python Programming for Intermediates — Champion Coders (2022)
Public Speaking Course — Australian Center of Education (2023)
General English Program — ACE (2016 – 2023)

Leadership & Community Engagement

eMpowering Youths Across ASEAN (eYAA) Cohort 6

2026

Selected Cambodian Representative & Operations and Logistic team

Puerto Princesa, Philippines

- Selected as one of Cambodia's representatives for eYAA Cohort 6, a regional ASEAN youth leadership program connecting young leaders across Southeast Asia.
- Served on the Operations & Logistics Team for the Y.E.S. We Can! Youth Empowerment Series with Filipino Hospitality Management and Consultancy, supporting initiatives addressing tourism labor gaps and youth unemployment.
- Helped organize training activities reaching 120 marginalized youths through face-to-face hospitality workshops, 1,000 students through digitalization webinars, and 50 aspiring entrepreneurs through entrepreneurship training.
- Coordinated workshop logistics and technical operations, supported multicultural teamwork, conducted tourism site assessments, and mentored participants to build confidence and pursue future opportunities.

Sisters of Code

2026

Ambassador

Phnom Penh, Cambodia

- Promoted digital literacy and technology education, encouraging youth, especially women, to participate in STEM and programming.

Technical and Vocational Education and Training (TVET)

2025 – 2026

Registration Assistant / Volunteer

Phnom Penh, Cambodia

- Supported registration, communication, and event organization.
- Assisted with event operations and participant coordination.

Prosob Festival

2025

Youth Volunteer

Phnom Penh, Cambodia

- Assisted with event coordination and participant support.

Scholarships

75% Scholarship — Cambodia University of Technology and Science (CamTech)
100% Scholarship — TUX Global Institute
100% Scholarship — Center of Science and Technology Advanced Development
100% Scholarship — Paññasatra University of Cambodia (AMT)
